WHO HE IS

Profile & Biography

Dr. Emmanuel A. Owolabi

PHYSICIAN | HEALTH INNOVATOR
INSTITUTION BUILDER

Dr. Emmanuel A. Owolabi is a physician, health innovator and institution builder committed to advancing healthcare in Africa through technology, research, education and leadership.

He is the Founder of EOhealth, a health-innovation and education platform focused on making reliable health information accessible, developing emerging healthcare professionals and building practical solutions to healthcare challenges. What began as a health-education initiative has evolved into a growing platform spanning public health communication, professional development, research, digital health and healthcare innovation.

Through the Virtual Health Literacy and Emergency Response Training, Dr. Owolabi has helped equip more than 400 participants from over 30 medical schools with knowledge and skills in health literacy, advocacy, communication and emergency response.

He also founded MentorMatrix Network, a mentorship and capacity-building platform helping young people develop practical skills, navigate opportunities and build careers of impact.

He is the Founder of Publish to Greatness, a multidisciplinary research mentorship community supporting students and early-career researchers to develop practical research skills and contribute to meaningful scientific work.

THE MISSION BEHIND THE WORK

To develop people, strengthen institutions and build innovative solutions for better healthcare across Africa.

Professional interests: artificial intelligence in medicine, digital health, health-systems strengthening, medical education, antimicrobial resistance, surgical systems and orthopaedics.

A former President of the Babcock University Association of Medical Students, he has led initiatives across research, mentorship, advocacy, health education and youth development.

EVIDENCE OF EXECUTION

Work & Verified Impact

400+

PEOPLE TRAINED

Participants equipped through structured health-literacy and emergency-response learning.

30+

MEDICAL SCHOOLS

A cross-institutional reach demonstrating the ability to coordinate beyond one campus.

54

RESEARCH MENTEES

Members organised across five active Publish to Greatness multidisciplinary groups.

4

SIGNATURE INITIATIVES

EOhealth, ViHLERT, MentorMatrix Network and Publish to Greatness connect education, mentorship, research and institution building.

WHAT THE EVIDENCE SHOWS

- Turns identified healthcare and capacity gaps into structured programmes.
- Builds communities that develop emerging professionals and researchers.
- Combines public education, research, technology and leadership in one mission.
- Has research work published, presented and recognised across Africa.

IDEAS TRANSLATED INTO ACTION

Speaking Topics

01 AI & Healthcare Innovation

Topics: What AI Can Realistically Solve in African Healthcare; Building Health Technology for African Realities; Responsible AI Adoption.

Audience outcome: Clearer understanding of realistic applications, barriers and conditions for responsible implementation.

02 Health Literacy & Medical Education

Topics: Health Literacy Is Healthcare Infrastructure; Making Medical Knowledge Understandable; Fighting Health Misinformation.

Audience outcome: Practical insight into how communication, education and patient understanding influence health outcomes.

03 Research Capacity & Implementation

Topics: From Research Interest to Competence; Research to Reality; Building Research Communities That Produce Meaningful Work.

Audience outcome: A framework for strengthening research skills, collaboration and evidence implementation.

04 Leadership & Institution Building

Topics: Building Institutions That Outlive Their Founders; From an Idea to a Working Organisation; Beyond the White Coat.

Audience outcome: Practical principles for building teams, programmes, systems and mission-driven institutions.

ONE CONNECTED MISSION

Signature Initiatives

EOhealth

HEALTH INNOVATION & EDUCATION

A platform making reliable health information accessible, developing emerging healthcare professionals and building practical solutions to African healthcare challenges.

Role: Founder and strategic lead.

ViHLERT

SCALABLE HEALTH-LITERACY TRAINING

The Virtual Health Literacy and Emergency Response Training equips emerging professionals with health-literacy, advocacy, communication and emergency-response capabilities.

Verified reach: 400+ participants from 30+ medical schools.

MentorMatrix Network

MENTORSHIP & CAPACITY BUILDING

A youth-development platform helping emerging professionals gain practical guidance, recognise opportunities and build careers of impact beyond formal qualifications.

Role: Founder.

Publish to Greatness

RESEARCH CAPACITY DEVELOPMENT

A multidisciplinary research mentorship community helping students and early-career researchers build competence, collaborate and contribute to meaningful scientific work.

Community: Five active groups with 54 members.

EVIDENCE WITH IMPLEMENTATION IN VIEW

Research, Innovation & Systems

Dr. Owolabi approaches research as more than publication. His focus is on developing capacity, translating evidence and connecting knowledge to practical healthcare improvement.

AREAS OF INTEREST

- AI in Medicine
- Digital Health
- Health Systems
- Medical Education
- Antimicrobial Resistance
- Surgical Systems & Orthopaedics

Research to Reality

The emphasis is on useful questions, collaborative work and evidence that can inform practice, programmes or policy.

His work and collaborations span health education, digital health literacy, antimicrobial resistance, medical education, surgical systems and African healthcare delivery.

Capacity Before Credentials

Through Publish to Greatness, emerging researchers are supported to build practical competence, work in multidisciplinary teams and contribute to meaningful scientific outputs.

Member work has been published, presented at African conferences and recognised through awards.

THE IMPLEMENTATION QUESTION

How can evidence move beyond journals and conference halls to improve the systems, decisions and experiences that shape healthcare in Africa?

A CLEAR EXPERIENCE FOR ORGANISERS

Speaking, Media & Engagement

APPROVED EVENT INTRODUCTION

Our speaker is Dr. Emmanuel A. Owolabi, a physician, health innovator and institution builder advancing healthcare in Africa through technology, research, education and leadership.

He is the Founder of EOhealth, a platform making health information accessible, developing emerging healthcare professionals and building practical healthcare solutions. Through initiatives including the Virtual Health Literacy and Emergency Response Training, his work has reached more than 400 participants across over 30 medical schools.

He also founded MentorMatrix Network, a mentorship and capacity-building platform, and Publish to Greatness, a multidisciplinary research mentorship community supporting emerging researchers.

Please welcome Dr. Emmanuel A. Owolabi.

ENGAGEMENT FORMATS

- Keynote addresses
- Conference panels
- Workshops & masterclasses
- Podcasts & interviews
- Fireside conversations
- Moderation & discussions
- Strategic partnerships

AUDIENCES & PARTNERS

Institutions

Healthcare organisations, universities and development partners.

Professionals

Healthcare workers, researchers and emerging leaders.

Public audiences

Communities seeking understandable, accurate health knowledge.

PARTNERSHIP & BOOKING

Build. Teach. Collaborate.

Engage Dr. Emmanuel A. Owolabi to help translate knowledge, evidence, technology and leadership into practical healthcare progress.

PARTNERSHIP PATHWAYS

- Healthcare innovation and artificial-intelligence projects
- Health-literacy and medical-education programmes
- Research and implementation collaborations
- Emerging-healthcare-leader development
- Speaking, media and EOhealth partnerships
