PROFILE

Dr. Emmanuel A. Owolabi is a physician, health innovator and Founder of EOhealth. He develops people, translates medical knowledge and builds practical solutions addressing healthcare challenges in Africa. He also founded MentorMatrix Network and Publish to Greatness, extending this mission through mentorship and research-capacity development.

SIGNATURE SPEAKING THEMES

01 AI & Healthcare Innovation

Responsible AI, African health-tech and the practical realities of implementation and scale.

02 Health Literacy & Medical Education

Clear health communication, misinformation response and training the next generation of healthcare leaders.

03 Research to Reality

Research capacity, meaningful collaboration and closing the gap between evidence and implementation.

04 Leadership & Institution Building

Building teams, programmes and mission-driven institutions designed to endure beyond their founders.
